

WHAT TO DO IF YOUR COVID-19 TEST IS POSITIVE

DON'T PANIC

80% OF PEOPLE WILL NOT GET SEVERE SYMPTOMS AND CAN RECOVER AT HOME

MONITOR YOUR SYMPTOMS

- ✓ TEMPERATURE
- ✓ COUGH
- ✓ SHORTNESS OF BREATH
- ✓ TELL YOUR DOCTOR IF THEY GET WORSE

ISOLATE YOURSELF

- ✓ STAY AT HOME
- ✓ STAY IN YOUR OWN ROOM
- ✓ STAY 6 FEET (2M) AWAY FROM OTHER PEOPLE
- ✓ AVOID PUBLIC TRANSIT

DON'T SPREAD COVID

- ✓ WASH YOUR HANDS OFTEN
- ✓ COVER YOUR COUGHS AND SNEEZES
- ✓ CLEAN SURFACES AND OBJECTS DAILY
- ✓ DON'T SHARE BLANKETS, DISHES, OR OTHER PERSONAL ITEMS

INFORM HEALTH CARE PROVIDERS

- ✓ WHEN YOU CALL TO MAKE AN APPOINTMENT
- ✓ BEFORE YOU GO TO THE DOCTOR
- ✓ IN AN EMERGENCY, TELL THE DISPATCHER

WAIT TO COME OUT OF HOME ISOLATION UNTIL...

- ✓ AT LEAST 7 DAYS AFTER POSITIVE TEST AND SYMPTOMS
- ✓ AND YOU DON'T HAVE FEVER, AND ARE NOT USING FEVER-REDUCING MEDICINES
- ✓ AND ASK YOUR DOCTOR IF YOU NEED A COVID19 TEST AGAIN BEFORE YOU COME OUT OF ISOLATION
